FELLOWSHIP IN AESTHETIC DENTISTRY IN BHOPAL

20TH 2021 TO 30TH OCT 2101

Duration 10 days

Unlimited Hands on training

Live Practical

Course Curriculum Sessions for training and Hands-on are as follows:-

Topic 1

BLEACHING

- + What is Bleaching?1**
- + Why do we need Bleaching?**
- + History and Categories of Bleaching**
- + Types of Bleaching**
- + Office Bleach**
- + Home Bleach**
- + Mechanism of Bleaching**
- + Vital and Non-vital Bleaching**
- + Problems with Bleaching**
- + Advantages & Disadvantages of in-office Bleach**
- + Management of Sensitivity after Bleaching**
- + Prognosis after Bleaching**
- + Home applied technique**
- + Precautions and instructions**

TOPIC 2

COMPOSITES RESTORATION

- + Introduction to composites**

- + Conventional
- + Microfilled
- + Hybrid
- + Shade selection and tooth preparation for composites
- + Designs for tooth preparation
- + Indications and contraindication for composites
- + Prevention of shrinkage and discoloration
- + C factor

TOPIC 3

BONDING AGENTS

- + What are bonding agents?
- + The classification of bonding agents based on generations
- + How to apply bonding agents clinically

TOPIC 4

- + DIASTEMA CLOSURE
- + Introduction for esthetic procedures
- + Isolation
- + Shade selection
- + Usage of matrix band
- + Polishing the restoration to prevent discoloration

TOPIC 5

REPAIR OF ELLIS FRACTURES

- + Proper treatment planning
- + Shade selection
- + Isolation
- + Tooth preparation
- + Restoration
- + Polishing the composite

TOPIC 6

PREPARATION & RESTORATION TECHNIQUES

- ✚ Class I, Class II, Class V cavity design for composite
- ✚ Sandwich technique in deep cavity cases
- ✚ Retention features in cavity
- ✚ Prevention from shrinkage (from light and material part)
- ✚ Common problem with composites
- ✚ Matrix band placement
- ✚ Polishing

TOPIC 7

INLAY AND ONLAY

- ✚ Introduction on appropriate treatment
- ✚ Cavity preparation for inlay and onlay
- ✚ Impression making
- ✚ Fixing the restoration
- ✚ Chair side inlay restoration

TOPIC 8

- ✚ DIAGNOSIS AND TREATMENT PLANNING FOR AESTHETIC AND COSMETIC CASES

TOPIC 9

FIXED PARTIAL DENTURE (crown and bridge)

- ✚ Anterior Tooth Preparation (metal free restorations)
- ✚ Diagnosis and treatment planning
- ✚ Armamentarium required
- ✚ Steps in tooth preparation
- ✚ Gingival retraction
- ✚ Techniques
- ✚ Materials
- ✚ Demonstration
- ✚ Impression in FPD
- ✚ Materials
- ✚ Techniques

- + Putty wash
- + Custom tray
- + Demonstration
- + Temporization in FPD
- + Direct method
- + Materials
- + Demonstration
- + Material science
- + Discussion on ceramics
- + CAD/CAM in dentistry
- + Application in our clinics
- + Shade selection
- + Color science
- + Latest advancements
- + Cementation in FPD
- + Materials
- + Procedures
- + Posterior Tooth Preparation
- + Diagnosis and treatment planning
- + Armamentarium required
- + Steps in tooth preparation
- + Gingival retraction
- + Techniques
- + Materials
- + Demonstration
- + Impression in FPD
- + Materials
- + Techniques
- + Putty wash
- + Custom tray
- + Demonstration
- + Temporization in FPD
- + Direct method
- + Materials
- + Demonstration
- + Material science

- + Discussion on ceramics
- + CAD/CAM in dentistry
- + Application in our clinics
- + Shade selection
- + Color science
- + Latest advancements
- + Cementation in FPD
- + Materials
- + Procedures

TOPIC 10

- + DENTAL LAMINATES/ VENEERS
- + History and evolution
- + Indications/contraindications
- + Types
- + Direct and Indirect
- + Armamentarium
- + Design considerations
- + Steps in tooth preparation
- + Isolation and soft tissue management
- + Impression making
- + Shade selection
- + Temporization
- + Trial and luting of restorations
- + Precaution and maintenance

TOPIC 11

- + ADVANCED PORCELAIN LAMINATES

TOPIC 12

SMILE DESIGNING

- + INTRODUCTION : GOALS OF SMILE DESIGNING
- + COMPONENT OF AN AESTHETIC SMILE
- + The basic shape of the face
- + Square
- + Tapering

- + Square tapering
- + Ovoid
- + The lateral profile
- + Straight
- + Convex
- + Concave
- + Vital elements of smile designing and their role (dental composition)
- + Tooth components
- + Dental midline
- + Incisal lengths
- + Tooth dimensions
- + Zenith points
- + Axial inclinations
- + Interdental contact area (ICA) and point (ICP)
- + Incisal embrasure
- + Sex, personality and age (Dentogenic concept)
- + Symmetry and balance
- + Soft tissue components
- + Gingival health
- + Gingival levels and harmony
- + Interdental embrasure
- + Smile line
- + Golden proportion (Lombardi),
- + Recurring esthetic dental proportions (Ward),
- + M proportions (Methot) and
- + Chu's esthetic gauges.
- + Soft tissue component of smile design
- + Gingival health
- + Interdental embrasure (cervical embrasure)

TOPIC 13

- + DIGITAL SMILE DESIGNING (DSD)

TOPIC 14

CLINICAL STEPS

- + Diagnosis and treatment planning

- + Importance of diagnostic waxup
- + Anterior deprogramming devices
- + Shade selection
- + Tooth preparation
- + Soft tissue management
- + Impression making
- + Temporization
- + Trial and luting of final restoration.

TOPIC 15

FULL MOUTH REHABILITATION

- + Use of Semi-Adjustable Articulators
- + Understanding Occlusion for function
- + Face-bow records and planning for Full Mouth Rehabilitation

TOPIC 16

- + TOOTH JEWELLERY

TOPIC 17

DISCUSSION ON DENTIST –LAB RELATIONSHIP

- + Instruction to the lab
- + Brief discussion on how to look out for a good lab
- + Assessing the quality of product you get

TOPIC 18

PERIO AESTHETICS & IMPLANT AESTHETICS

- + Interdisciplinary approach-Implant Aesthetics, Perio Aesthetics, Ortho Aesthetics
- + Detailed understanding of Basic Periodontal aesthetics
- + Gingivectomy and gingivoplasty

Gum depigmentation techniques

TOPIC 19

LASER DENSITY

- + Laser physics

- + Laser tissue interactions
- + Safety & protocol
- + Laser energy settings & parameters
- + Application of lasers in different fields of dentistry
- + Soft tissue lasers
- + Use of lasers in depigmentation, Frenectomy & Crown lengthening
- + How to incorporate lasers in your practice
- + more uses of lasers

TOPIC 20

- + DENTAL PHOTOGRAPHY

TOPIC 21

ADVANCE PERIO AESTHETICS

- + Hands-on practice on Gingivectomy & Gingivoplasty
- + On pig or goat jaw
- + Hands-on, on Depigmentation on the goat jaw

TOPIC 22

ADVANCE COMPOSITE AND CERAMIC AESTHETICS

- + (pink composite & ceramic)

TOPIC 23

- + Compoeners
- + Lumeneers

TOPIC 24

- + ENDO -AESTHETICS with fibre post and Restoration

TOPIC 25

- + Detailed discussion on aesthetic practice set up and Marketing and promotion activity

TOPIC 26

- + MEDICO – LEGAL ASPECTS OF DENTISTRY

TOPIC 27

- ✚ FACIAL AESTHETICS
- ✚ Botox
- ✚ Dermal Fillers
- ✚ Threadlifts
- ✚ Mesotherapy
- ✚ Anesthesia for Cosmetic Procedures on Face
